## Who is Daniel Mandel?

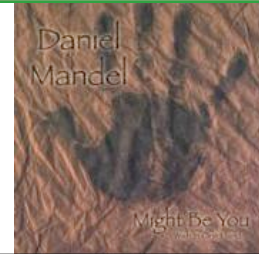

Daniel Mandel is a singer songwriter with a powerful combination of emotionally honest lyrics, beautiful melodies, and storytelling. His songs are deeply contemplative with thought provoking lyrics that connect with people.

## Might Be You

Catalog DM-001

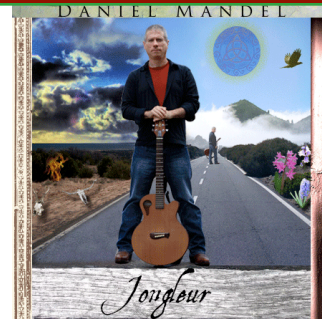

Might Be You (released September 2005) contains a collection of twelve adult contemporary focused and expressive folk rock songs with thoughtful and emotional lyrics. Each of these songs take you on a journey through relationships and emotions. Inspired by the likes of Michael Penn, Elvis Costello and REM — this journey is worth the trip. These songs are immersed in the poet philosopher's well, and take a look deeper, asking questions one step farther.

## Jongleur

Catalog DM-002

Jongleur (released November 2008) contains a collection of twelve pop folk rock songs. The title comes from an old French word meaning entertainer who sang songs, often of his own composition, and told stories. This seemed to be a good fit as I wrote many of these songs in an amazing place in Southwestern France. On this album I worked with a new mixing engineer and studio musicians as well as some new friends to create a great sound to enhance and expand on my original vision. There are some great additions such as horns, percussion, bass and mandolin.

## What are people saying about Daniel Mandel?

### Nancy Spanier & Paul Oertel

There is so much sweetness to your voice & your songs are so well crafted, both the lyrics & music. We are deeply, deeply touched by the words --we find them most unusual full of surprises, unpredictable, intelligent, not at all run-of-the-mill like a lot of popular songs, poetic, & deeply self-researched.

### Dale Tanis 5 Stars!

Inspiring!! Daniel Mandel sings and performs from his heart to ours, connecting to those human elements that many of us would rather not discuss. He does so in a way that brings forth a yearning to be heard, to be known, instead of making us feel uncomfortable. Share the human experience!
